LETTER FROM SUPERINTENDENT JANNEY .-I deem it an act of justice to myself and to the religious society that nominated me for the office of Superintendent of Indian Affairs in Nebraska, to notice the speeches of Senators Thayer and Tipton on the Indian Appropriation Bill.

Senator Thayer admits that the Friends employed in the Superintendency are faithful, honest agents, and are here with an honest purpose, but he states, as the result of the introduction of the Friends into the Superintendency, there have been more murders of peaceful citizens on the frontier and a greater destruction of the property of citizens on the frontier of Netraska during the last year, than there had been during the previous eight years. He says, moreover, that "the impression has gotten among the Indians that of they do wrong, if they commit a murder, if they destroy property, the Quaker agent will shie'd them from the consequences of their acts."

This declaration has struck me with surprise, as I supposed it was known to the Senator, and to the community, that we had been prompt and faithful to bring before the proper tribunal every case where there was reasonable ground for suspicion that the Indians under our charge had committed crimes against the whites.

The murder of McMurty took place before we came to Nebraska, and during the superintendency of H. S. Denman. Soon after I took charge of this office, the body of McMurty was found, and the crime being charged upon the Pawnees, I was the first to move in the matter of their arrest by going to the agency and in-ducing the chiefs to give up those on whom suspicion rested. It is not our purpose to screen the guilty, and the Indians know it.

The only case of murder suspected of having en committed by Indians under my charge is that of O. P. Munson, and it was attended to ufacture. the next day after the charge was communicated to the agent. I was then at the agency, and after a patient examination I thought there was sufficient testimony to warrant us in committing five of the Winnebagoes for examina-tion by the State authorities. They were promptly delivered up and are now in custody. As they have not yet been tried, I express no opinion in relation to their guilt, but merely assert that the case could not have been more promptly attended to.

For the murders on the frontier by the Indians or white men, the Friends who have charge of this superintendency are not responsible in any way. The Indians under our charge did not commit them, and it is obviously unjust to attribute them to the Quaker policy.

Senator Thuyer says in his speech : "There are six tribes. They vary, perhaps, from 500 to 1,000 in each tribe." He expressess his opinion that the Quakers ought to have selected the warlike tribes on the frontier, for the subjects of their efforts, instead of the peacea-

ble Indians on the reservations. In these remarks he understes the number of the Indians, and undervalues the judgment of the President. There are, in this superinten dency, about, 6,400 Indians. It was the President's policy to place the warlike Indians under military officers, and the peaceable tribes under the care of the Friends. I think the American people have endorsed his policy.

The remarks of the Senators on the present condition of the Indians in this superintendency show that they are not correctly in formed. We can show that more work has been done by Indian labor during the last year than ever before by these tribes. They are using, to advantage, the implements we have furnished them, and they need more. They are plowing and planting, they are cutting and hauling saw logs for their buildings, and the men are doing work formerly done only by squaws. Even some of the chiefs, who never worked before, have put their hands to the plow, and driven their own teams.

In order that this work of improvement may advance rapidly, we require the aid of the Government, and it is surprising to me that Senators from Nebraska should oppose the appropriation of \$30,000, to be expended in this State, for the purchase of wagons, teams, tools, agricultural implements, seeds,

live stock, &c. In reply to some recent remark in relation to the "invidious distinction" which the Government makes in the employment of Friends in this work, in preference to others, I refer to the speeches of Senators Morton, of Indiana, and Scott, of Pennsylvania, and Edmunds, of Vermont. As the remarks of Senator Scott have not appeared, I will quote the substance of them from the New York

Tribune: "Mr. Scott (Republican, of Pennsylvania) believed that any distinction awarded the Friends as agents of the Government clemency in dealing with the Indians, was their's as a matter of right. He read from a biography of Wm. Penn, to show the marked success attending the operations of the Friends among the savages and to the effect that not one drop of Quaker blood had ever been shed by Indians. What other denomination could say that not one drop of their blood had been

shed by an Indian.' By reference to my annual report, it will be seen that I have given full credit to other religious societies for the good they have done, and which their missionaries are now doing S. M. JANNEY. among the Indians. OMAHA, June 15, 1870.

ONE morning a pompous little man called upon Sydney Smith, saying that, being about to compile a history of distinguished families in Somersetshire, he had called to obtain the Smith arms. "I regret, sir," said the reverend wit, "my inability to contribute to so valuable a work; but the Smiths never had any arms, and have invariably sealed their letters with their thumbs.
